

Re: Docket# 98N-1038, "Irradiation in the Production, Processing, and Handling of Food."

I want the FDA to continue prominent labeling of food that has been treated with irradiation. The label should be conspicuous and include the logo for irradiation.

Your Signature: Elin Arnan

Additional comments: I simply can't understand why the Government keeps trying to use incredibly poisonous radioactive elements which alter something so basic as food. Please stop poisoning us!
